

Transportation

Transporting a Covered Individual and/or Family Member from one location to another location for the purpose of accessing a needed service. Transportation does not include the delivery of any other service during the time of transport, including linkage, assistance in applying for the needed service, or monitoring the delivery of the needed service. Transportation may also include the provision of taxi vouchers or bus passes to the Covered Individual/Family

Transportation:

- Must be provided face-to-face with the Covered Individual/Family Member
- Addresses an identified need for transportation services as determined by the Child and Family Team
- May be provided as a 1:1 or group service with the Covered Individual/Family Member. If more than one individual is being transported in the same vehicle, the Provider should bill for each individual separately by dividing the total transportation time by the number of individuals being transported and rounding this time to the nearest quarter hour.
- Supports, rather than supplants, the Family's natural resources and support network
- Does not include the travel time of the Service Provider when the Covered Individual/Family Member is not present in the Provider's vehicle
- Cannot be provided by someone who resides in the same residence as the Covered Individual/Family
- Does not include time waiting to provide transportation services.
- If provided through the use of a taxi voucher must include a receipt or other form of supporting documentation for billing.

Unit of Service: 15 minutes

Credentialing requirement: Minimum of a High School Diploma or GED with a valid Texas Driver's License, good driving record, and vehicle liability insurance as required by law. Must be at least 21 years old.
