2:15 – 2:45 pm Other Considerations

1. Is the ease of getting a program or service up quickly important for SB 292? We anticipate a push to spend funds quickly in year 1, and we are likely to get notification in January which is 5 months into the fiscal year.
 2. Do we want to expand existing services or expand existing additional outreach/intervention or a combination of both? Or are you interested in building something completely new?
 3. What are our priorities (1,2 & 3 in million dollar increments) based on the responses above?
 4. Who can deliver the programs to meet the priorities?
 5. What are reportable outcome measures?
 6. How does the success of the plan further the state's interest in reducing recidivism, arrest and incarceration of individuals with mental illness?
